

desired, the name of the port at which they are to be used, and the name and address of the consignee to whom they are to be shipped. Seals for use on airline liquor kits need not specify the name of the port at which they are to be used, and orders for such seals need not be confined to seals for use at one port. Carriers and bonded warehouse proprietors may purchase small emergency supplies of in-bond and in-transit seals from port directors, who will keep a supply of such seals for this purpose. An order for green or uncolored in-transit seals shall be submitted to the office of the Director of Customs-Excise Inspection, Ottawa, Canada, for approval and forwarding to the manufacturer. An order for green strap-in bond seals for use on railroad cars must stipulate that the seals are to be consigned to the collector of customs and excise in Canada at the port indicated on the seals for entry purposes and storage under Customs lock and key.

(d) The manufacturer or supplier shall ship the seals to the consignee named in the order and shall advise the director of the port to which the seals are shipped as to the kind and quantity of seals shipped, the name of the port (where required), serial numbers, and symbol number (where required) stamped thereon, the name and address of the consignee, and the date of shipment.

(e) [Reserved]

(f) *Port director approval required.* In-bond seals may be purchased only by a foreign trade zone operator or Customs bonded warehouse proprietor, a customs bonded carrier, a nonbonded carrier permitted to transport articles in accordance with section 553, Tariff Act of 1930, as amended (19 U.S.C. 1553) or in the case of red in-bond and high security red in-bond seals, the carrier's commercial association or comparable representative approved by the port director. In-transit seals may be purchased by a bonded or other carrier of merchandise or, in the case of blue in-transit seals, by the carrier's commercial association or comparable representative approved by the port director. Except for uncolored in-transit seals, uncolored Customs seals may not be purchased by private interests and

shall be furnished by port directors for authorized use without charge. In-bond and in-transit seals sold by port directors shall be charged for at the rate of 10 cents per seal, except for high security red in-bond seals which shall be charged for at the current manufacturer's list price for the quantity purchased.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 24.13, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 24.13a Car, compartment, and package seals; and fastenings; standards; acceptance by Customs.

(a) *General standards.* The seals and fastenings, together, shall

- (1) Be strong and durable;
- (2) Be capable of being affixed easily and quickly;
- (3) Be capable of being checked readily and identified by unique marks (such as a logotype) and numbers;
- (4) Not permit removal or undoing without breaking, or tampering without leaving traces;
- (5) Not permit use more than once; and
- (6) Be made as difficult as possible to copy or counterfeit.

(b) *Seal specifications.* (1) The shape and size of the seal shall be such that any identifying marks are readily legible.

(2) Each eyelet in a seal shall be of a size corresponding to that of the fastening used, and shall be positioned so that the fastening will be held firmly in place when the seal is closed.

(3) The material used shall be sufficiently strong to prevent accidental breakage, early deterioration (due to weather conditions, chemical action, etc.) or undetectable tampering under normal usage.

(4) The material used shall be selected with reference to the sealing system used.

(c) *Fastening specifications.* (1) The fastening shall be strong and durable and resistant to weather and corrosion.

(2) The length of the fastening used shall not enable a sealed aperture to be opened or partly opened without the

seal or fastening being broken or otherwise showing obvious damage.

(3) The material used shall be selected with reference to the sealing system used.

(d) *Identification marks.* (1) If the seal is to be purchased and used by U.S. Customs, the seal or fastening, as appropriate, shall be marked to show that it is a U.S. Customs seal by application of the words "U.S. Customs" and a unique identification number on the seal.

(2) If the seal is to be used by private industry (i.e., a shipper, manufacturer, or carrier), it must be clearly and legibly marked with a unique company name (or logotype) and identification number.

(e) *Customs acceptance.* Seals will be considered as acceptable for use and/or purchase by U.S. Customs as soon as the manufacturer attests that the seals have been tested and meet or exceed the standards provided in paragraphs (a) through (d) of this section, and will continue to be considered acceptable until such time as it is demonstrated that they do not meet the standards. A manufacturer may attest to the qualification of a specific seal, or to an entire product line of seals as of a certain date. Any addition of a seal to a group of seals attested to as a group would require specific acceptance of that seal by Customs.

(f) *Testing.* All testing of seals deemed necessary before Customs acceptance will be done by the manufacturer or by a private laboratory, and not by Customs. However, Customs reserves the right to test, or to have tested, seals that have been accepted by Customs.

(g) *Records.* The manufacturer's attestation that a seal meets or exceeds the standards specified in this section and, if deemed necessary by Customs, the seal test record shall be sent to the Assistant Commissioner, Field Operations, Headquarters, U.S. Customs Service, Washington DC 20229.

[T.D. 81-185, 46 FR 36842, July 16, 1981, as amended by T.D. 91-77, 56 FR 46114, Sept. 10, 1991]

§ 24.14 Salable Customs forms.

(a) Customs forms for sale to the general public shall be designated by the

Commissioner of Customs, or his delegate. Customs forms which are designated as salable shall meet the following conditions: (1) The form is distributed to private parties for use in completing customs transactions; (2) the quantity used nationwide annually is sufficient to justify the administrative costs involved in selling the form and accounting for the collections involved therein, or the form is primarily for the use of a special group; (3) distribution is or can generally be made in lots of 100 or more; (4) the form is normally distributed to commercial concerns (customhouse brokers, freight forwarders, vessel agents, carriers, regular commercial importers, etc.) rather than to or for the use of individuals or others (tourists, churches, schools, occasional importers, etc.) for non-commercial purposes.

(b) The price of each salable Customs form shall be established by the Commissioner of Customs, or his delegate, and shall be adjusted periodically as the varying costs of printing and distribution require. A list of salable customs forms showing the price at which each is sold shall be prominently posted in each customhouse in a location accessible to the general public.

(c) Customs forms for sale to the general public, except unusually large or otherwise unsuitable forms, shall normally be prepared in units containing 100 copies. If a completely prepared bill or receipt is presented by the purchaser at the time of the purchase, the port director's paid stamp shall be impressed thereon; otherwise, no receipt shall be given.

[28 FR 14808, Dec. 31, 1963, as amended by T.D. 75-132, 40 FR 24519, June 9, 1975]

§ 24.16 Overtime services; overtime compensation and premium pay for Customs Officers; rate of compensation.

(a) *General.* Customs services for which overtime compensation is provided for by section 5 of the Act of February 13, 1911, as amended (19 U.S.C. 267), or section 451, Tariff Act of 1930, as amended (19 U.S.C. 1451), shall be furnished only upon compliance with the requirements of those statutes for applying for such services and giving
